

Ceiling perimeter trim finishing details at partitions and walls

<p>Edge trim with hold-down clip 40 x 20 x 1.0 mm Standard length: 3,000 mm hold-down clip</p>	 <p>A cross-sectional diagram showing a rectangular metal trim profile with a small hook-like clip on its top edge. The trim is shown being inserted into a channel in a wall or partition. A dashed line indicates the trim's position when fully seated.</p>
<p>F-shaped edge trim 25 x 25 x 1.0 mm Standard length: 4,000 mm</p>	 <p>A cross-sectional diagram of an F-shaped metal trim profile. The top flange is wider than the base. It is shown being inserted into a channel in a wall, with a dashed line indicating its final position.</p>
<p>Shadow edge trim 24 x 12 x 10 x 19 x 0.5 mm 25 x 15 x 8 x 15 x 0.5 mm 20 x 20 x 20 x 20 x 0.7 mm Standard length: 3,050 mm 25 x 25 x 25 x 1.0 mm Standard length: 4,000 mm</p>	 <p>A cross-sectional diagram of a shadow edge trim profile. It features a wide, flat top flange and a base with a stepped profile. The trim is shown being inserted into a channel in a wall, with a dashed line indicating its final position.</p>
<p>F-shaped shadow edge trim 25 x 25 x 25 x 1.0 mm Standard length: 4,000 mm</p>	 <p>A cross-sectional diagram of an F-shaped shadow edge trim profile. It has a wide top flange and a base with a stepped profile. The trim is shown being inserted into a channel in a wall, with a dashed line indicating its final position.</p>
<p>Two-part shadow U-shaped edge trim With edge trim 30 x 40 x 1.0 mm Standard length: 4,000 mm U-shaped edge trim 20 x 36 x 20 mm hold-down clip</p>	 <p>A cross-sectional diagram showing a two-part shadow U-shaped edge trim. The main part is a wide, flat top flange with a stepped base. A separate U-shaped component is shown being inserted into a channel in the wall, with a dashed line indicating its final position.</p>
<p>Edge trim 24 x 24 x 0.7 mm 24 x 24 x 0.5 mm 32 x 19 x 0.5 mm 24 x 19 x 0.5 mm Standard length: 3,050 mm 25 x 25 x 1.0 mm</p>	 <p>A cross-sectional diagram of a simple rectangular edge trim profile. It is shown being inserted into a channel in a wall, with a dashed line indicating its final position.</p>
<p>Wall channel 40 x 20 x 0.5 mm Standard length: 3,050 mm</p>	 <p>A cross-sectional diagram of a wall channel profile. It is shown being inserted into a channel in a wall, with a dashed line indicating its final position.</p>

Edge trim with hold-down clips

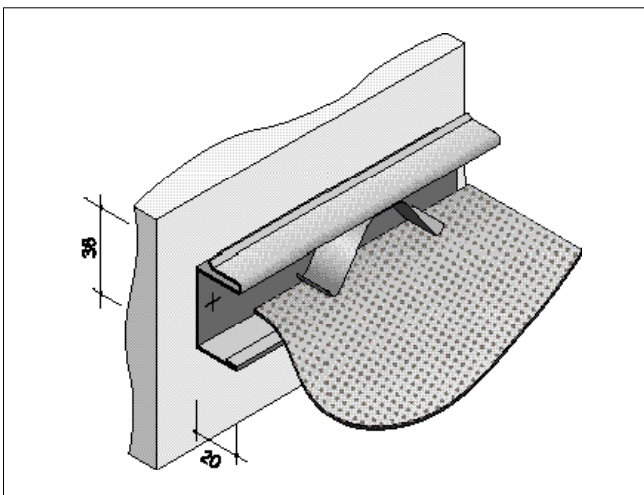

Edge trim
20 x 40 x 1.0 mm steel
hold-down clip

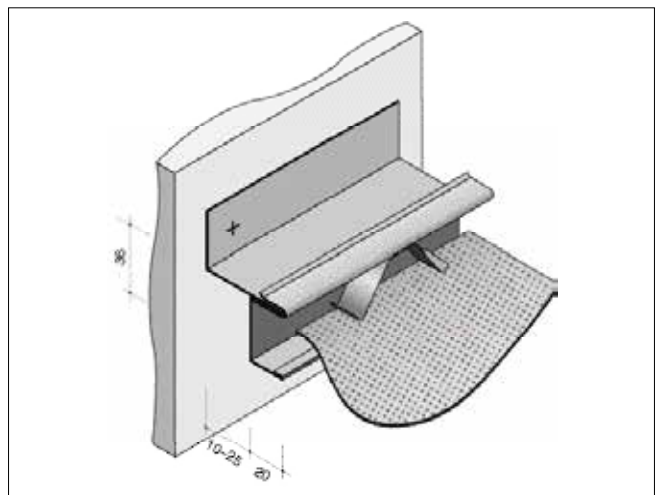

Shadow edge trim
With recess filler strip

U-shaped edge trims

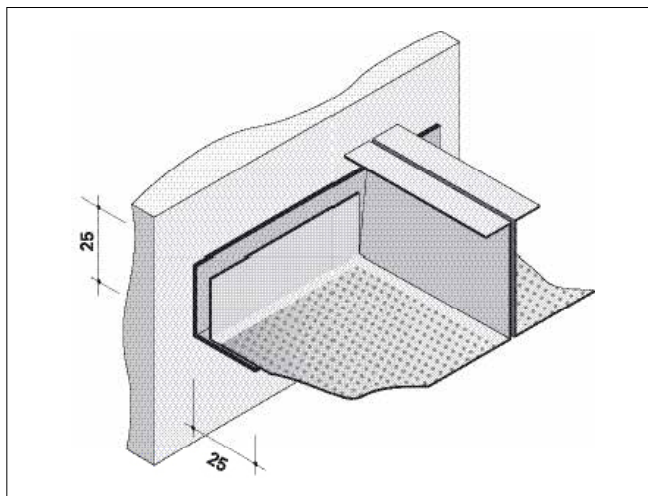

U-shaped edge trims
20 x 36 x 20 mm steel
hold-down clip

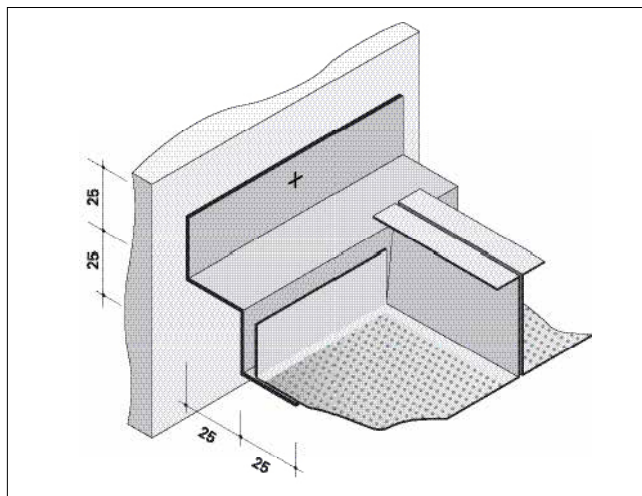

Two-part shadow U-shaped edge trim
Edge trim 30 x 40 x 1.0 mm
U-shaped edge trim 20 x 36 x 20 mm
hold-down clip

Edge trim and shadow edge trim

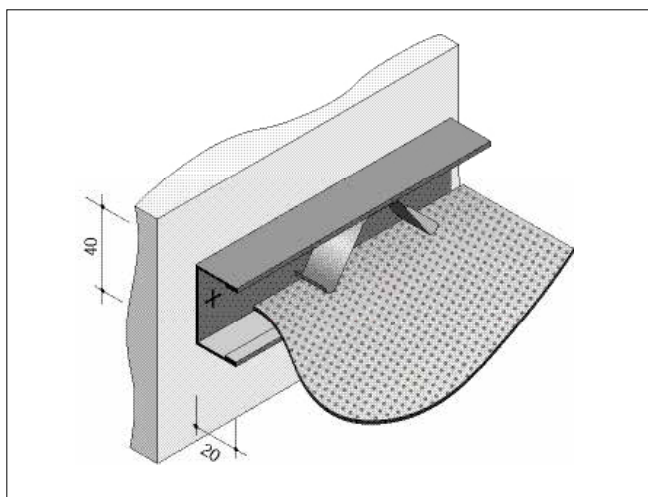

Edge trim
25 x 25 x 1.0 mm steel
other dimensions on request

Shadow edge trim
25 x 25 x 25 x 1.0 mm steel

Wall channels

Wall channel with hold-down clip
40 x 20 x 0.5 mm
standard length: 3,050 mm
